Arron Thind, co-founder of Code Med, is a Foundation Year 3 Doctor and Deputy Lead of Emerging Technology at the Department of Health and Social Care. He is also an NHS Clinical Entrepreneur and a DigitalHealth London Digital Pioneer Fellow.

During his Foundation Year 1 training, Arron learned computer programing alongside his clinical commitments, and has since been building digital-health software and training other healthcare professionals to code. His most recent digital solution, SimEPR, is designed to create a more immersive simulation training experience for medical students and doctors. SimEPR secured a place on London south Bank University's SimDH accelerator, and is currently deployed in 3 NHS trusts.
